| 2018 - 2021 |
Bansuan Jananusorn School,
Studying Arts and Languages Program.

| 2021 - Present | GPA : 2.41
Huachiew Chalermprakiet University,
Bachelor of Science in
Computer Science (Currently Studying).

University Projects

Semester 1/2023

- Project : Perfect Tiles
- Subject : Computer Graphics Mini Project

This project was developed using HTML, CSS, and JavaScript as a practice project for using JavaScript

Semester 1/2024

- Project : NetworkScanner
- Subject : Cyber security

Use nmap to scan and view IP addresses in the network, with PHP as the UI.

Semester 1/2025

- Project : Turbidity meter sensor
- Subject : Introduction to Microcontroller and IoT applications

IoT work by purchasing equipment and creating water turbidity sensors to measure turbidity or suspended solids in water to determine how clean the water is.

Activities & Certificate

2024 Open House

- As a staff, standby in the VR room, teaching how to wear and how to use it.

2024 Sci-Tech Camp

- Help organize the event, prepare the venue, be an event staff to help the participants and take care of the mini game activity base.

2025 Startup Thailand League

- Participate in presenting IoT projects for further development opportunities
